

Peats

Audio, Visual & Technology Distributor

AV SOLUTIONS BROCHURE

Your Audio, Visual & Technology Distribution **Partner** in Ireland.

More than distribution. A partner in every project.

Company Profile

Peats is a leading Irish distributor of audio visual and technology solutions, supporting AV and IT integrators since 1969. We combine decades of industry experience with a strong portfolio of global brands to deliver reliable, innovative solutions across the Irish market.

Operating from our Dublin office and showroom, our Pro AV team provides expert advice, technical support and fast access to stock for projects of all sizes. Backed by an experienced leadership and sales team, we are committed to helping our customers deliver successful AV installations.

At Peats, we go beyond supplying products; we support AV and IT integrators at every stage of the project. From specification & system building to delivery and after-sales support, our team helps ensure your installations are delivered on time, on budget and to the highest standard. With over 50 years of experience in the Irish market, we combine global brands with local expertise to help you deliver reliable, future-proof AV solutions.

From concept to completion, our AV specialists work closely with our partners to provide trusted advice, reliable products, and the support needed to get projects delivered successfully. Our team supports everything from product selection, system design, training and after-sales support.

Peats' Mission Statement

To deliver an experience that keeps customers choosing us, make smart decisions that drive sustainable profit, build a team that's hungry, committed, and wants to be here, always guided by our North Star, the customer!

What sets us apart

Local Stock. Fast Turnaround.

We hold extensive stock in our Dublin warehouse, giving you fast access to key products when timelines matter most.

Global Brands

We partner with industry-leading manufacturers to bring proven, high-performance AV solutions to the Irish market.

Built for Integrators

We understand your challenges with tight deadlines, evolving specs and client expectations.

Showroom and training Facilities

Stay ahead with hands-on demonstrations and ongoing training sessions from our AV showroom and training rooms.

Reliable Logistics & Support

From order to delivery, our systems and team ensure a smooth, dependable experience for every project. We offer flexible delivery options direct to your business or end customer site, helping installations stay on schedule. For customers managing larger rollouts or phased installations, we also provide short-term storage solutions to support project staging, commissioning, and deployment.

Supporting Every Sector

We work with integrators delivering projects across:

- Corporate meeting rooms & unified communications
- Education & lecture theatres
- Retail & hospitality sound systems
- Live events & conference spaces
- Broadcast and Media

Our Commitment

We are committed to helping our customers succeed by providing the right products, the right advice, and the right support at every stage.

Showroom & Training Facilities

See It. Experience It. Sell It.

Our Dublin showroom and training facility is designed to help our partners experience, understand and ultimately sell the latest AV technology with confidence.

Why simply show your customer a brochure when you can show them the solution in action. Bring your customer or end user into the Peats showroom to see, hear and experience products first-hand. Our AV team can demonstrate equipment, answer technical questions and help bring your proposed system to life with time for a coffee while we talk through the options.

The facility also hosts **hands-on product training, manufacturer events and certification programmes**, helping our partners develop their knowledge and stay up to date with new technologies.

As members of CEDIA and the Irish AV Group IE, we remain closely connected to industry developments, standards, and education, ensuring we continue to evolve the support we provide to Ireland's AV community.

Want to arrange a customer demo, showroom visit or training session? Talk to the Peats AV team.

InFocus®

A legacy of innovation in visual display solutions

Revolutionizing visual communication has been our driving force since 1986. Today, we empower the world with cutting-edge display and collaboration solutions that transform every interaction, from boardrooms to classrooms. Our mission is simple: enable smart teamwork, clear communication, and inspiring spaces. **We turn technology into unforgettable experiences.**

High-brightness, high-clarity projectors for meeting rooms, classrooms, lecture theatres, and large venues. From value models to advanced laser projectors, InFocus delivers vivid images, easy setup, support and long-term reliability.

From Android OS to Google EDLA certification, JTouch interactive displays deliver 4K clarity, smooth multi-touch, and smart tools that elevate presentations, teaching, and teamwork. Built for everyday reliability in classrooms and corporate environments.

InFocus DVLED solutions deliver seamless, large-format brilliance for lobbies, boardrooms, control rooms, retail environments, and live events. Bright, bezel-free, and engineered for 24/7 impact, delivering stunning visuals that elevate every space.

FUSION™ SERIES MOUNTS

CHIEF

FUSION WALL MOUNTS

Wall mounts with or without Tilt functionality form the backbone of the Fusion Series. Install and service displays in record time with built-in smart adjustability and servicing options. Add optional accessories for cameras or device and cable management.

CHIEF

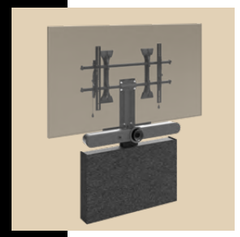

FREE-STANDING SOLUTIONS

Whether you need a standard cart or stand for a display, or a custom solution for dvLED All-in-One displays, Chief has reliable options, allowing you to place displays anywhere you need.

CHIEF

ADD AS MUCH STORAGE AS YOU NEED

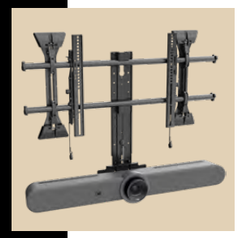

If Chief's Proximity Component Storage Panels don't offer enough space behind the displays for your devices, go for the Fusion Storage Cabinet to add aesthetic, front-serviceable storage space.

CHIEF

ATTACH YOUR CAMERA DIRECTLY TO YOUR FUSION MOUNT

Fusion Series offers both below and above display mounts for various cameras. Make sure your camera is securely and easily installed with Fusion.

BUILT AROUND THE WAY YOU INSTALL

Chief's Fusion Series puts installers back in control through speedy, precise and flexible installations suitable for today's projects.

With smarter adjustment features, faster setup, and rock-solid alignment tools, Fusion helps you tackle tricky stud placements, fine-tune multi-display arrays, and achieve perfect results even after the displays have been mounted. Whether you're building a wall mounted or off-the-wall set-up, Fusion gives you the confidence to get it right the first time.

ImprovingLives

legrand® | AV

MULTIBRACKETS

These Floor stands are made with a simple task. To enhance the visual experience in the space where its placed. Attractive, yet robust and functional, and often modular, our floor stands are ideal for a wide variety of applications and settings from boardrooms, meeting rooms and lobbies to classrooms, auditoriums or exhibition halls.

Audio Control

Powerful Control. Exceptional Audio Performance.

Powering and managing audio performance across single and multi-zone environments, this category delivers complete control and clarity. With leading brands such as Bose Professional, and Optimal Audio, these solutions are designed for hospitality venues, retail environments, corporate offices, public buildings, and leisure facilities.

From DSP processing to intuitive control systems, they enable integrators to create flexible, high-quality audio systems that are easy to deploy, manage, and scale.

Zone Controllers

Optimal Audio

Optimal Audio Zone controllers are compact, DSP-enabled digital routers that deliver flexible multi-zone audio processing for commercial sound systems. Available in 4- or 8-zone desktop or rack-mount configurations with optional built-in amplification, they combine intuitive front-panel controls with the browser-based **Web App** for advanced setup, speaker presets, user-access locking, and automated daily resets.

By pairing versatile onboard connectivity with a simplified interface for venue staff and continuous software updates, Zone provides an easily installed, future-proofed audio solution at an accessible price point.

adastra

Professional Audio Solutions for Every Space

Adastra professional audio solutions are designed to deliver reliable, high-quality sound across a wide range of commercial AV installations, and supports integrators and installers with dependable, easy-to-deploy audio technologies.

Providing solutions for retail spaces, hospitality venues, education facilities, offices and public buildings, we design systems that deliver clear communication, consistent coverage and flexible control.

- Zoning & Paging
- Portable Public Address
- Background Sound Reinforcement
- Noise Pollution Control
- Induction Loop Systems
- Brackets, Racking & Microphones

adastra | Sounds for Spaces Since 1949

PROFESSIONAL

Veritas amplifiers.
TRUTH BE TOLD.

The Veritas series by Bose Professional lives up to its name. The design starts with a sound that audiophiles will love, along with powerful features that include support for one or two zones, and fully flexible presets that optimize audio and safeguard system integrity for consistent, high-quality sound in any environment. Veritas models also feature Bluetooth® wireless input and an intuitive OLED screen with quick-start QR code for self-guided setup.

Truth be told, you won't find a better-sounding, easier-to-use amplifier in its class.

Audio Output

Crystal Clear Sound. Every Space Covered

From background music to unified comms, our Speakers & Microphones range supports every application. With brands including Bose Professional, Audio-Technica, Adastra & Qtx these solutions are suited to hospitality, education, corporate, events, retail and public sector projects. Whether ceiling, wall-mounted, portable or conferencing systems, we provide high-quality audio coverage, speech intelligibility and reliability across both indoor and outdoor environments.

Whatever the space, our speaker and microphone range delivers clear, consistent coverage. From architectural ceiling and pendant speakers to weatherised outdoor loudspeakers, portable PA and networked conferencing microphones, there's a solution for every hospitality, education, retail, corporate and leisure project. Built for installers. Backed by Peats.

qtx

Dynamic AV Solutions for Events, Venues and Installations

The QTX range of professional AV solutions are designed for events, entertainment venues and mobile sound applications. Delivering versatile, reliable solutions for DJs, performers, venues and event professionals, QTX combines performance, practicality and value.

Portable PA Systems

Flexible sound solutions for mobile performers, events and presentations.

Loudspeakers

Reliable and powerful speaker systems for venues, DJs and live sound.

Effects Lighting

Create impactful visual experiences with dynamic lighting solutions.

BOSE PROFESSIONAL

TOO POWERFUL TO LOOK THIS GOOD.

DESIGNMAX **DM12SE**

Meet the newest and most powerful member of the DesignMax family. The Bose Professional DesignMax DM12SE. This weatherised, full-range 12-inch coaxial loudspeaker delivers deep 38 Hz bass, consistent 102° conical coverage, and sleek architectural styling for both indoor and outdoor installations. From performance venues and houses of worship to hospitality spaces and retail, DesignMax DM12SE gives integrators the output, flexibility, and aesthetics they've been asking for, without the bulky look of traditional PA boxes.

12" coaxial transducer delivers clear, full-range sound with consistent 102° conical coverage
Weatherized, injection-molded enclosure for indoor and outdoor reliability
Deep bass response down to 38 Hz for powerful low-end performance
Coaxial point-source design ensures clarity and uniformity across the space
Rugged, outdoor-ready pan/tilt bracket enables fast installs, precise aiming, and long-term reliability
Factory-optimized tunings for Bose Professional amplifiers and processors
Available in black or white finishes matching the sleek DesignMax aesthetic
